Florida Industrial Pretreatment Association
Technical Sessions Agenda
Thursday, May 8th 2025
Southbank Hotel, Riverwalk—Jacksonville, Florida

1:00 p.m. – 1:40 p.m.

Room:
Rope

FOG BMP - Industrial Pretreatment, FOG, & Backflow Cloud Based Compliance Programs
FOG BMP is the premier FOG Management software used throughout Florida. Now Florida jurisdictions can combine FOG BMP with the Industrial BMP module and the Backflow BMP module for complete compliance. This presentation will demonstrate how pretreatment programs can easily manage every aspect of FOG, IPP, & Backflow from an easy-to-use cloud based platform.

Room:
Dockside

Schier – Most Important Functions of all Grease Interceptors
The separation and storing food waste solids. How they affect your collection system, and how best to control them.

Room:
Commerce

Wind River Environmental— A Relational Environment
Covers the evolving dynamics and interpersonal metrics between Grease Haulers, Inspectors and FSE's / Food Service Establishments.

1:45 p.m. – 2:25 p.m.

Room:
Rope

Filter Shine - Removal of FOG from Vent Hoods/Filter Exchange
How can cleaning kitchen hood filter equipment create an environmental problem and increase the need for maintenance on grease interceptors? This presentation will show how most food service establishments unknowingly create increased interceptor cleaning frequencies needs and shows solutions to this issue while keeping environmentally harmful cleaning techniques form occurring.

Room:
Dockside

Florida Septic – The ABC's of precast Grease and Oil/Water Separator Units
An overview that will encompass how the interceptor works, materials standards with local, state and national requirements for pre-cast concrete, along with H20 load rating on the tank for installations under pavement, and what the inspector may find in the field.

Room:
